

MADERA

ESTABLISHED 1893

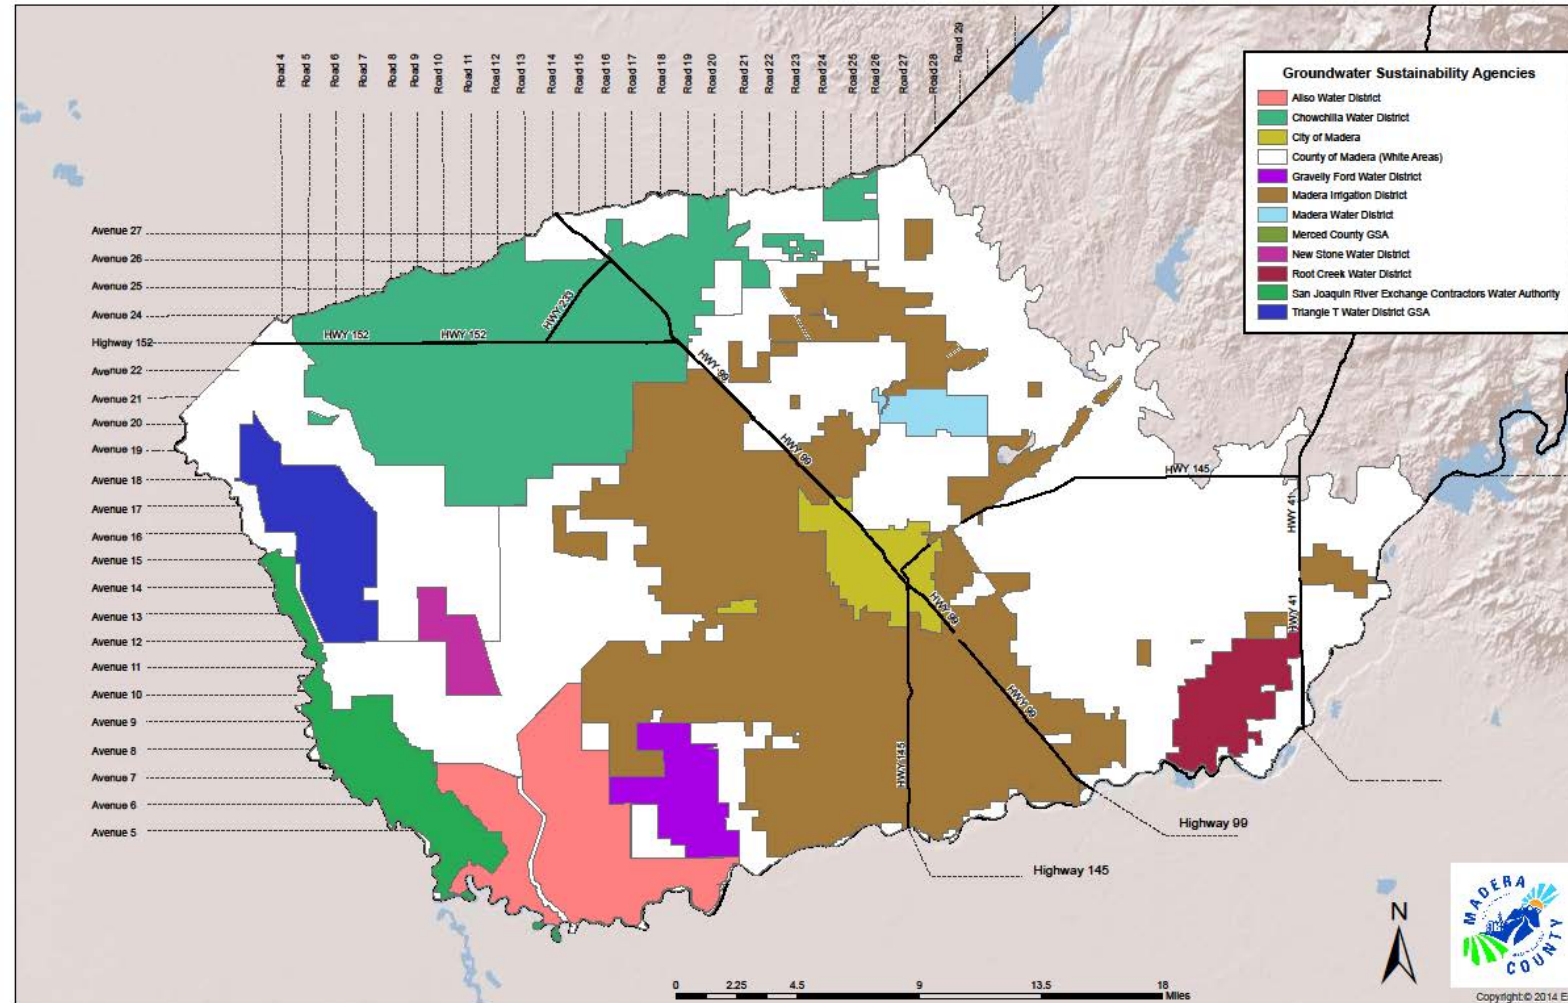

HEART OF CALIFORNIA

COUNTY

Madera County Groundwater Sustainability Agencies (GSAs)

@MADERACOUNTY
maderacounty.com

Allocations

- A water budget that decreases over time
 - Sustainable Yield (SY) – native water to the land from seepage.
 - Transitional Water (TW) – water used above the native water; also known as overdraft, which will need to decrease slowly over time until it is no longer used.

Allocations

- A water budget that decreases over time until 2040
- Managed within a farm unit
- Measured in Evapotranspiration of Applied Water (ETAW) in inches of water or acre-feet
- Measured with a choice of Irrigatech, Land IQ, or private meters
- Think of it as “water consumed” and not pumped
