WRRC Webinar Features 104(b) Grant Recipients' Research

On November 20, 2024, recipients of funding from the 104(b) Grant Program presented a WRRC Webinar on two water-related research projects. A team

from Arizona State University — Ame Min-Venditti, a PhD student in the School of Sustainability, and Angelina Mann, an undergraduate student double majoring in English (Creative Writing) and Spanish Literature and Culture — presented first.

NPR Water Reuse Segment Quotes WRRD Director

On October 29, 2024, NPR's *All Things Considered* radio program broadcast an information piece on wastewater recharge and reuse. Journalist Pien Huang interviewed experts about Orange County Water District's facilities, which include advanced treatment technology, recharge ponds, and manmade waterfalls.

APW Festivals Bridge Age Groups

Arizona Project WET is only a handful of festivals away from wrapping up the 2024 Fall Water Festival season, and what a season it has been! This year, the team experienced growth and was able to bring many more festivals to Tucson's 4th graders ... but why stop at involving 4th graders alone?

Land Acknowledgment

We respectfully acknowledge the University of Arizona is on the land and territories of Indigenous peoples. Today, Arizona is home to 22 federally recognized tribes, with Tucson being home to the O’odham and the Yaqui. Committed to diversity and inclusion, the University strives to build sustainable relationships with sovereign Native Nations and Indigenous communities through education offerings, partnerships, and community service.
