

# Santa Cruz River Research Days March 26-27, 2015

Santa Cruz River Research Days is a venue for learning about research and conservation efforts that pertain to the natural and cultural resources along the Santa Cruz River. This annual event aims to trigger new research questions, promote networking, catalyze new collaborative projects, and foster awareness of each other's research and conservation efforts.

**This event is free and all are welcome. RSVP appreciated for planning.**

### When

Thursday, March 26, 2015 from 9:00am - 5:00pm

Friday, March 27, 2015 from 9:00am – 5:00 pm

### Where

Pima Community College, Desert Vista Campus - Ocotillo Room  
5901 S. Calle Santa Cruz  
Tucson, Arizona 85709

### Program Highlight

History and Preservation Efforts of Human Cultures Along the River

Special Plenary Session and Field Trip

## Call For Papers

### Santa Cruz River Research Days: 7th Annual

March 26 & 27, 2015

**What:** Presentations on environmental and cultural research, monitoring, restoration, and conservation efforts along the Santa Cruz River, an opportunity to share research and foster collaboration and idea sharing.

**When:** Thursday, March 26, 2015, 9:00 – 5:00 pm and  
Friday, March 27, 2015, 9:00 – 5:00 pm

**Where:** Pima Community College – Desert Vista Camps, Ocotillo Room

#### Important Dates:

- Abstract Submission: **February 13, 2015**
- Schedule Released: **March 10, 2015**

#### Call for Papers – Due February 13, 2015:

Individuals interested in giving an oral or poster presentation, are invited to submit abstracts on research, monitoring, or restoration being conducted along the Santa Cruz River by **Friday February 13, 2015**.

We envision that time slots for oral presentations to be 15 to 20 minutes. A computer and projector will be available for powerpoint. Posters will be up both days and the poster session will occur on Friday March 27. Note: We will reserve oral presentations for projects that are complete or have preliminary results. We encourage poster presentations for projects that either are in the conceptual phase, do not have complete or preliminary results, or are too complex to present in a 20 minute oral presentation.

Please submit abstracts via email to Jason Welborn at [jason\\_welborn@nps.gov](mailto:jason_welborn@nps.gov).

**Abstract Guidelines:** Abstracts should be short and informative. Authors alone are responsible for correct spelling and grammar. We will compile abstracts to produce the annual Proceedings of the event. In addition to the proceedings, we will archive pdf copies of posters and presentations on the Sonoran Institute website. Please format your abstract following the below example (preferred presentation type, title, presenter's name in capitals, affiliation for each author, single-spaced, abstract body no more than 300 words):

Oral Presentation

**A Living River: Charting wetland health of the Lower Santa Cruz River**

CLAIRE ZUGMEYER, Sonoran Institute

Evan Canfield, Pima County Regional Flood Control District

The Lower Santa Cruz River (LSCR) in northeastern Pima County is Arizona's.....
